Newsletter No. 2

Week of: 08/9/04-08/13/04

The project is located starting at Sylvan Pass heading seven miles east to the East Entrance gate. The project involves widening and reconstructing the roadway, including: retaining walls, culvert replacement, blasting, milling, paving and striping. The East Entrance Road project was awarded to HK Contractors INC. on May 26, 2004. The Contract Fixed completion date for this project is October 5, 2006.

Tentative Construction Schedule:

Closures for the East Entrance will continue from Sunday night through Wednesday night (8:00 PM to 8:00 AM), with half hour delays during the daylight hours, Monday-Friday. Starting August 16, 2004 the project will be closed nightly seven days a week (8:00 PM to 8:00 AM) with construction delays during the daylight hours, seven days a week, limited to half hour delays.

Base Schedule (starting at Sylvan Pass and heading two miles towards the East Entrance) Surveying should finish up this week with removal items, grubbing, and water diversions continuing. HK has subcontracted all earthwork out to Oftedal who will be mobilizing equipment this week, planning on excavation starting the week of August 16th.

Option A (extending the project another 2.7 miles towards the East Entrance from the Base Schedule) Surveying is progressing with the clearing directly behind.

Project completion date is set at October 5, 2006. Any questions or comments concerning the project can be addressed to the FHWA Lake Office YNP.
