Project Description

Petty Creek road is located near Alberton, MT south of exit 77 on I-90. The project begins after crossing the railroad tracks near the Clark Fork River and extends for 11.7 miles south into Lolo National Forest. Project improvements will include paving the first 9.8 miles to a consistent 24' width, replacing the Petty Creek Bridge at MP 9.7, improving roadway alignment and improving drainage. Missoula County will assume maintenance duties upon completion of the project.

Road Surface conditions

The current road surface has not been changed by construction activity.

Current and Upcoming Work

The contractor, West Company Inc, is currently clearing the roadway prism, staking the project for construction, and moving fences and gates to the new right-of-way locations. Major earthwork and culvert work is scheduled to begin in July.

Traffic Delays

Please expect 15-30 minute delays, Monday through Friday, 8am to 6pm. Please use caution when passing laborers and machines working in the road and on the shoulder.

The Storm Water Pollution Prevention Plan (SWPPP) for this project is available for viewing at the Office of the Project Engineer, located at 16862 Beckwith St, Suite N in Frenchtown.
