## **BEAVER CREEK ROAD NEWSLETTER**

### **Construction Progress for the week of August 3<sup>rd</sup>-6<sup>th</sup>**

The main construction operation for this week involved continued additional subexcavation work near the GI Ranch to establish support for the subsequent pavement structure. Also, the grinder returned and started milling the existing pavement near the end of option A (USDA Forest Boundary). Select topping was placed throughout the project. Excavation work, ditch shaping and material crushing at Bedortha Pit continued throughout this week.

### **Construction for the week of August 10<sup>th</sup>-13<sup>th</sup>**

Tidewater Contractors, Inc will be working on shaping of ditches, subexcavation, additional subexcavation, placement of select topping, and material crushing (at the Bedortha rock pit) next week. The contractor doesn't anticipate any crushing at the Miller pit, although trucks will be regularly using the haul road to the pit. Expect delays less than 30 minutes along Beaver Creek Road during this time. During daytime hours a pilot car will facilitate public traffic through the project site.

Rock placement in subexcavation area

Close up of the fabric and rock being placed into the subexcavation area

### **Contractor's Work Schedule**

Tuesday thru Friday- Hours: 7am – 5pm
