

Technology Deployment Initiatives and Partnership Program
Request for Funding
FY 2002

FHWA Strategic Goal Area: Productivity

Project Title: TD Library Data Entry

Problem Statement: The TD Library is being established throughout FLH to be hosted on the Internet by CFLHD, but the WFLHD must populate the text base system with all of our publications.

Proposal: Use the office contract data entry person to populate the text base system. TDIP funds will be use to pay for 450 hours of Tina Roper's time.

Benefits: Data entry will be completed on time for the roll out of the Library system and the contractor's time will be effectively used by filling slack time with this work.

Resources/Cost: 450 hours @ \$23.35 = \$10507.50

Duration: All data entry will be during FY 2002

Organization/Method: Contract support service
